You can create and burn it as a DVD, you can mount it to another drive on the computer, or you can open it as a .zip file.

When opening the INSITE8.1.1v2.ISO file as a .zip file, right-click on the file, click on Open With, and then select Windows Explorer.

Depending on the operating system and the downloaded file, it will either mount it on a new drive where you can access it, or you will have to unzip it by finding and clicking on the Extract or Extract All button or link which will then ask you to select a Destination folder. It will then allow you to extract it to the same folder as default, or a different folder. When opening the INSITE8.1.0Build314.ZIP file, right-click on the file, click on Open With, and then select Windows Explorer.
