

PLEASE NOTE THE FOLLOWING IMPORTANT CHANGES:

All INCAL DVD-ROMs are available for download at <https://www.cummins.com/support/digital-products-and-services-support/incal-support#software-downloads>

Enclosed is the October 2024 SIR INCAL DVD-ROM.

Please take a moment to review the information in this cover letter for details regarding the contents of the SIR INCAL DVD-ROM.

**What is Service Information Regulation (SIR)?**

Beginning with the EPA 2013 engine launches, the Service Information Regulation (SIR) requires that Cummins Inc. provide the applicable INSITE calibrations to interested parties not affiliated with the Cummins Authorized service channel.

**What is INCAL?**

The INCAL DVD contains all the MidRange and Heavy-Duty calibrations for EPA 2013 and beyond automotive applications. For the INCAL DVDs details, please see the listings below.

**Changes in Calibrations**

New engine control module (ECM) calibration codes have been released using industry standard encryption for all electronically controlled engine products. These ECM calibration codes are only supported in Cummins INSITE™ electronic service tool version 8.7.0 and newer. If users do not upgrade, users will not be able to use any calibrations on these INCAL DVDs or downloaded through Quickserve Online (QSOL) or Cal over web. Any previous INCAL DVDs are still supported during the existing expiration dates.
