PowerSpec 7.0.1 Release Contents

❑ The following changes are made for Gearing

- ❖ Axle Ratio limits

1. Removed the minimum Axle ratio value (2.64) restriction for Endurant
2. Removed the Axle range check for ISX15/12 Smart Advantage (2.64 - 2.93)
3. Changed the Axle range from 2-16 to 1-16

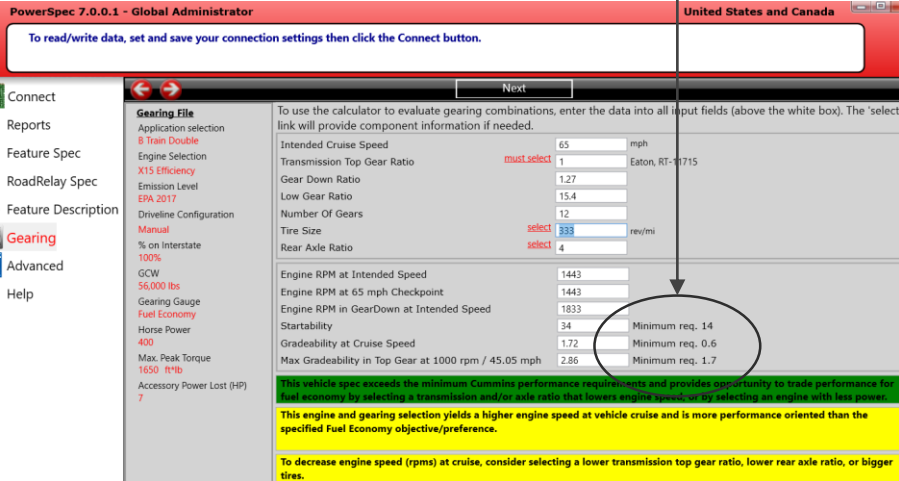

- ❖ Changed the maximum value for GCW

- ❖ Removed transmission models AS3 and DM3 due to obsolescence

- ❖ Endurant for fuel economy/balance

1. If weight > 80K lbs., only 12 gear transmission models will be available
2. If weight <= 80K lbs., both 11 and 12 gear transmission models will be available

- ❖ Display the minimum performance data on the calculation page

	Min	Max 7.0.0 (,000 lbs.)	Max 7.0.1 (,000 lbs.)
